

REAL WORLD ENGINEERING

Pittsburgh

Take Part in a Professional Engineering Experience

At Carnegie Mellon University's College of Engineering, you are getting a world-class engineering education, but what is engineering like off campus, in the "real world" and how can you connect to and build a professional network for your future? The Real World Engineering: Pittsburgh (RWE: Pittsburgh) program is designed to assist you in gathering this information.

By participating in this experience, you will:

- have a job-shadowing experience targeted toward your career goals
- network with professionals in industry and local alumni
- strengthen your leadership skills
- learn about future opportunities
- attend an off-campus reception
- gain exposure to the city of Pittsburgh

Program Dates: Thursday, October 18 (evening reception) and

Friday, October 19 (all-day site visit(s))

This is mid-semester break, so no class will need to be missed.

To apply, go to engineering.cmu.edu/rwe

Applications are available August 27 and due on Monday, September 10, at 9 a.m. to Scaife 120. Accepted students will be notified by Monday, September 17. This program is open to all College of Engineering students. For more information, contact: tbonime@cmu.edu. Watch for upcoming information on spring semester RWE programs: Washington, D.C., Detroit, Boston and Silicon Valley.
