The Engineering Research Accelerator, a part of the Dean's Office in the College of Engineering, provides faculty members with an integrated, coordinated, and college-wide set of services for research incubation, acceleration, and support.

**QUESTIONS ABOUT OUR SERVICES?**

- Want to know more about our seed funding, cost sharing, and other funding opportunities?
- Need help with pre- and post-award administration?
- Could you benefit from introductions to potential industry and government partners?
- Do you need assistance with data management plans, broader impact plans, post-doctoral mentoring plans, or other non-technical documents?
- Would you like help with proposal preparation, including technical editing, writing, and graphic design?

We're available each Friday from 9:00 a.m.-10:00 a.m. in Scott Hall 6002
